The SW15TE Mechanical Spreader has been developed to be a safe, simple and cost effective solution to Flange Spreading. It is suitable for use during:

- Commissioning • Construction • Routine maintenance
- Shutdowns / outages • testing • Valve change-outs

### Special Features

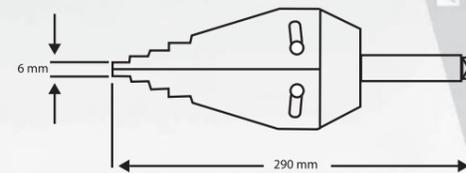

- An access gap of only 6mm is required for use
- It is robust yet lightweight, at only 7.2kg
- It generates a spreading force of 15 tons at 10000PSI
- It uses automatic mechanical retraction
- It has a unique interlocking first step to enhance safety and give a secure hold at tips

### Operating Benefits

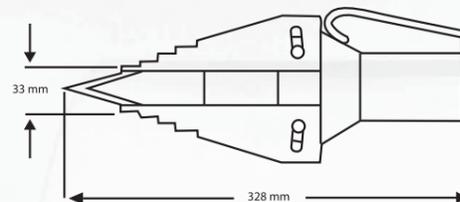

- Time / Cost saving • Lightweight
- Precision tool • Safe & easy to use
- Minimal maintenance required
- Labour saving/No slippage

### The Kit comprises of:

- 2x Wedge Heads
- 2x 10000PSI Hydraulic Cylinders
- 2x 10000PSI Hydraulic Hoses
- 1x 10000PSI 2 Stage Hand Pump
- 1x 10000PSI Twin Value Manifold
- 2x Safety Blocks
